Successful Tips on How to Win the First Day of School Anxiety:

- **Choose a day when you do not have a busy schedule in the morning.** Your child can sense you are in a hurry or under pressure. We suggest that you arrive between 8:45 am and 9:00 am.
- **Stay for a short time.** From our experience, we have found that the continued presence of a parent (longer than 15 minutes or so), delays the adjustment of the child to his/her new environment. As long as you are present, your child will not come to us, and this is only natural.
- **Bid a short goodbye to your child before leaving.** A short, unemotional goodbye will help your child adjust. Assure him/her that you will come back to pick him/her up at a specific time.
- **Pick up on promised time.** During the first week, please try to pick up promptly at 12:15 pm or even a few minutes earlier so that your child will not worry as he/she sees his/her new friends being picked up.

If at any time problems arise, we will immediately give you a call. For more information, please refer to the [Parent Handbook](#).
