# WEEKLY THEMES

8:30 AM-1:30 PM

Week  
1

## Around the World

- Developing the knowledge, skills, and understanding they need to make sense of the world
- Having first-hand experiences that encourage observation, exploration, prediction, problem-solving, critical thinking, decision-making, and discussion
- Sustaining children's natural curiosity to explore the world and laying the foundation for learning in geography, history, and science

Week  
3

## Nature & Wilderness Explorer

- Experiencing outdoors and exploring nature
- Incorporating classroom teaching and outdoor adventure in order to analyze the difference between living and non-living things
- Challenging students to use their physical senses to describe living things in their community
- Describing what students saw, touched, smelled, and heard in the garden

Week  
5

## The Ocean & Pirates

- Learning about sources of water in the ocean and where oceans are found on Earth, and specific animals that live in the ocean.
- Getting to know about jobs related to the ocean, such as fisherman, oceanographer, and marine biologist
- Investigating pirates' character development by describing how the characters look, talk, or behave
- Identifying the features that make characters in stories come alive for the reader and using these features imaginatively in their own writing

Week  
2

## Art Studio

- Improving confidence and self-esteem through different artwork
- Students' expressing themselves through the medium of art
- Increasing students' fine motor skills
- Learning about primary colors and secondary colors

Week  
4

## In the Lab

- Gaining skills in goal setting, planning, and problem-solving and nurturing students' curiosity
- Conducting scientific experiments to get students to begin observing the world around them
- Enhancing students' ability to perform scientific tasks later in life
